

Aloe Patient Chairs

Built for comfort, durability
and modularity.

Specifically designed with infection control in mind

The Aloe Patient Chair combines patient comfort, durability and modularity.

The backrest is designed to provide long lasting lateral and lumbar support and an egress arm design to offer comfortable support and an Aloe seat height of 18 inches from the ground the individual is easily able to transfer in and out of the chair. The seats have contoured sides and waterfall front edges to minimize pressure on seat bones, legs, and veins – constructed from high resilient foam the seat stands up to many years of continuous use. The all-steel frame construction provides structural integrity with metal-to-metal connections and a standard wall saver design.

Aloe is specifically designed to ensure ease of cleaning, offering an impressive array of infection control features.
