

airCentric Task Chairs

Be comfortable. Be productive.
Ideal for healthcare environments.

The airCentric task chairs combines more than a decade of airflow engineering research, with proven ergonomic design, comfort and cleanability.

Ergonomics: The airCentric offers a wide range of options and features to meet the rigorous demands of healthcare tasks. Features like our patented back height adjustment system, multiple seats sizes, and various arm options will ensure the right fit and support.

Comfort: The airCentric uses an improved, highly durable, molded back foam cushion that stands up to the test of years of continuous use without losing load-bearing capabilities, shape or dimensions. The molded foam provides long lasting lateral and lumbar support while ventilation holes in both the back and front are designed to allow airflow.

Cleanability: With a solid back cap, the airCentric is made to meet stringent cleaning requirements in healthcare environments. Also available with durable and cleanable IC Plus coated arm caps.

Solid back cap

tCentric armrest

Optional IC Plus arm caps

Optional adjustable headrest

Features

Backrest

- Solid back cap

Seat

- Tailored upholstery on seat pan (20" w x 19" d)

Control

- Available mechanisms in Midnight Black:
 - > Synchro Glide
 - > Multi Tilt
- Available mechanisms in Light Grey:
 - > Synchro Glide
 - > Boardroom

Base

- 25" glass reinforced high profile nylon base
- Urethane casters

Options

- IC Plus arm caps
- Non-slip front edge
- Air lumbar system
- Air thoracic system
- Patented adjustable headrest
- Midnight Black or Light Grey frame, back cap and base
- Optional seat height ranges
- 6 different seat sizes
- Caster, glide, and base options

Warranty

Lifetime*

- Original purchaser
- Defects and functional failure of materials up to a weight of 300 lbs.
- With the following exceptions:

10 Years*

- Mechanisms, arms, foam, fabric
- IC Plus against cracking, punctures and tears

* Includes labor costs.
