

# Aloe Series

Furniture for intensive-use  
healthcare environments.

health**H**centric™  
healthcare seating specialists

The **ALOE SERIES** is ideal for use in waiting rooms, patient rooms, examination rooms and treatment areas.

The importance of sanitation cannot be understated in the healthcare environment. Keeping chairs, tables and public areas clean is essential, and cleanability is at the heart of the Aloe series. All healthHcentric seating is constructed using materials that are non-porous and that have no exposed wooden components. Aloe is designed with a clean-out feature between the seat and the back to allow liquid or other debris to fall to the floor for easy clean up. Seams are positioned away from the user to help keep out pathogens and moisture.

### Superior Infection Control

When Aloe is constructed using the **IC Plus Upholstery** with seamless sealed seats and our unique clip system, Aloe not only meets but exceeds healthcare needs and standards. Most importantly, Aloe series furniture is designed to be durable, long-lasting and easy-to-clean. With IC Plus Upholstery, the Aloe series becomes completely non-porous and seamless, making microbial growth virtually non-existent. IC Plus stands up to the rigorous use of hospital-grade cleaners and disinfectants, making the Aloe series a perfect choice for high traffic areas.

healthHcentric is the only seating manufacturer focused on creating durable, easy-to-clean and affordable seating solutions for demanding, intensive-use environments that aid in infection prevention.

## Guest & Patient Chairs

Seating designed for comfort, function and durability.

Patient care areas have a wide range of needs. Patients and guests want comfort and familiarity, while staff require functionality and efficiency.

Constructed with a steel frame, Aloe seats and backs offer exceptional comfort with high resilient foam for long lasting support and no bottoming.

The molded seat foam is contoured on the sides and has a waterfall front edge to help minimize pressure on the ischial tuberosities (*the seating bones*), legs and veins.

### Features

- 1 Available in 3 seat sizes – 21", 24" and 30", and 2 back heights – 16 ½" and 25 ¾"  
Weight capacity: 21" – 350 lbs., 24" – 450 lbs., 30" – 750 lbs.
- 2 Optional ottoman patient chair available.
- 3 Removable seat option.

# Standard Aloe Features

Everything you need in your healthcare facility.

- 1 **CLEAN OUT FEATURE** between the seat and back allows liquid and debris to fall to the floor for easy clean up.
- 2 **ALL-STEEL FRAME** constructed with durable metal-to-metal connections, enhancing durability and ease of cleaning.
- 3 **CONTOURED BACK** provides support to the patient while reducing strain and stress on the body.
- 4 **ERGONOMIC EGRESS ARMS** offer cushioned comfort and support to aid in getting in and out of the chair.
- 5 **WATERFALL FRONT** edge helps minimize pressure on seat bones, legs and veins.
- 6 **WALL-SAVER FRAME** keeps the backrest away from the wall to prevent damage and wear to both the chairs and the wall surface.
- 7 **18" SEAT HEIGHT** for ultimate comfort and safety.
- 8 **FIELD REPLACEABLE** components.

# Optional Aloe Features

An impressive array of options to meet your particular needs.

## 1 REMOVABLE SEAT CLIP SYSTEM

healthCentric's patented removable seat clip system allows the seat pan to be easily removed, without tools, and to be completely cleaned, including the underside, seat clips and frame. Available on all Aloe Series chairs, this system is effective, simple and extremely useful.

## 2 IC Plus UPHOLSTERY™

A highly durable, puncture and tear resistant upholstery solution that forms a seamless moisture-proof barrier which prevents the ingress of fluids, pathogens and bed bugs, and stands up to the toughest hospital-grade cleaners and disinfectants.

## 3 GREY URETHANE ARMCAPS

## 4 REAR CASTERS

Allow ease of movement for cleaning (*Aloe Patient chairs only*).

## 5 AVAILABLE FRAME COLORS.

# Aloe Multiple Seating & Tables

Designed to maximize space.

Aloe Ganged Seating can be arranged in many different ways making it easy to optimize even the smallest spaces.

Easy to install and reconfigure, the only limitation to the number of chairs that can be ganged together is the size of the room itself. Shared arms save space and money, and reduce the surface that needs to be cleaned.

When used with one of the six styles of linking tables, the chairs can be linked into an even wider variety of configurations.

## Sleeper Chairs

The most intuitive sleeper chairs on the market.

There are occasions when patient's guests require somewhere to sit and sleep. The Aloe Sleeper Chair is perfect in these situations.

A favorite with healthcare staff, the Aloe Sleeper Chair effortlessly converts from a chair into a bed. With no mechanical parts, its intuitive design and easy handling means anyone can open and close it without instruction or assistance. Simple to clean, Aloe Sleeper Chairs are constructed from one solid piece of metal, reducing the need for maintenance and repairs.

### Features

- Designed for cleanability
- Intuitive conversion
- No mechanism
- Locking casters
- Wall-saver design
- Replaceable parts

- 1 **ALOE SLEEPER CLUB CHAIR**  
Overall dimensions: 38 ½"h x 36/83"d x 35"w  
Weight capacity: 750 lbs. (Bariatric-friendly)
- 2 **ALOE SLEEPER CHAIR**  
Overall dimensions: 38 ½"h x 36/83"d x 32"w  
Weight capacity: 750 lbs. (Bariatric-friendly)

**Superior cleanability.**  
Designed with infection control in mind.

**Minimalist mechanism.**  
For increased durability and performance.

**Locking Casters.**  
For unlimited or limited mobility.

**Wall-saver frame.**  
To protect both furniture and walls.

**Intuitive.**  
Easy to open and close.

## Guest Chair

Fit properly. Fit every body.

Our Guest Chairs are offered in three sizes 21", 24" and 30".

The generous dimensions provide a comfortable and safe chair that fits unique sizes and body shapes.

Guest Chairs can be ganged with other chairs for a seamless look and feel.

Important surface characteristics to consider when choosing healthcare seating.

Characteristic	Rationale	healthCentric Seating
<b>Durability</b>	<ul style="list-style-type: none"> <li>Furnishings should be easy to maintain and repair.</li> <li>Fabrics that are torn allow for entry of microorganisms and cannot be properly cleaned.</li> <li>Items that are scratched or chipped allow for accumulation of microorganisms and are more difficult to clean and disinfect.</li> </ul>	<ul style="list-style-type: none"> <li>IC+ Upholstery Solution, used exclusively on our seating solutions is 9-10 times more durable than vinyl and is PVC-free, meaning it won't dry-out and crack.</li> <li>See page 12 for full details about IC+.</li> </ul>
<b>Cleanability</b>	<ul style="list-style-type: none"> <li>Furnishings must be able to withstand cleaning and should be compatible with hospital-grade detergents, cleaners and disinfectants.</li> <li>Upholstered furniture must be covered with fabrics that are fluid-resistant and non-porous</li> </ul>	<ul style="list-style-type: none"> <li>The availability of IC+ Upholstery Solution, the most durable, cleanable and impermeable upholstery solution available.</li> <li>Proprietary removable seat "clip system" allows the seat pan to be easily removed without tools, promoting cleanability.</li> <li>Seating designed with ample clean out space between the seat and back.</li> </ul>
<b>Inability to support microbial growth</b>	<ul style="list-style-type: none"> <li>Materials such as fabric and wood that hold moisture are more likely to support microbial growth.</li> <li>Materials such as metal and hard plastics are less likely to support microbial growth.</li> <li>Wet organic substrates (e.g. wood) should be avoided.</li> </ul>	<ul style="list-style-type: none"> <li>healthCentric seating is constructed using materials ideal for healthcare environments meaning no porous materials or exposed wood is used.</li> </ul>
<b>Surface porosity</b>	<ul style="list-style-type: none"> <li>Microorganisms have been shown to survive on porous fabrics such as cotton, cotton terry, nylon and polyester, and on plastics which are considered porous substrates.</li> <li>Porous upholstered furniture should not be used in public areas if the spread of infection is at all a concern.</li> </ul>	<ul style="list-style-type: none"> <li>IC+ Upholstery Solution is a coating technology specifically formulated for the healthcare industry to prevent the spread of infection through its non-porous surface.</li> </ul>
<b>Absence of seams</b>	<ul style="list-style-type: none"> <li>Seams trap bacteria and are difficult areas to clean</li> </ul>	<ul style="list-style-type: none"> <li>IC+ can be made seamless and by doing so eliminates the opportunity for pathogens to grow and prevent bed bug infestations.</li> </ul>

- ✓ Superior puncture and tear resistance
- ✓ Sealed and seamless
- ✓ Non-porous
- ✓ Guaranteed not to crack
- ✓ PVC- and latex-free
- ✓ Superior cleanability and cleaning agent tough
- ✓ Bed bug proof
- ✓ 10 year warranty
- ✓ No off-gassing
- ✓ Anti-slip protection
- ✓ CAL 133 compliant
- ✓ GREENGUARD® certified

## IC Plus Upholstery®

Proprietary to healthCentric, IC Plus Upholstery® is a breakthrough technology specially formulated for the healthcare industry to provide the most durable, cleanable and impermeable medical-grade surface available.

Pathogens, fluids and bed bugs stay out because IC Plus is non-porous, seamless and forms a

completely sealed moisture-free barrier that makes microbial growth virtually non-existent.

IC Plus has an abrasion rating of 1,000,000 double rubs and is PVC - and latex-free while guaranteed not to crack, puncture or tear for 10 years. IC Plus is strong enough to stand up to any hospital-grade cleaner or disinfectant and has

been tested to be more resistant to puncturing and tearing than common hospital-grade vinyl.

The IC Plus Upholstery® can be used on all healthCentric seating and is ideal for emergency rooms, operating rooms and other high traffic patient areas.
