

**up**Centric<sup>®</sup>

# Mobile Workstation

Effortless mobility and height adjustment.

# Hand hygiene sit-stand workstation. A flexible solution.

The **upCentric Mobile Workstation** is a perfect solution for people on the move. It allows for flexible movement around the healthcare environment without sacrificing work space.

The tiltable desktop offers four angle options, ideal for activities such as typing, or reviewing documents, and includes an edge stopper to keep materials secure. Effortlessly adjust the workstation's height with a convenient foot pedal to support your tasks, improve posture, and reduce fatigue. The sealed gas cylinder allows for a quick, smooth transition from sitting to standing. The lockable casters keep the workstation secure when not in motion.

An easy-to-use, ergonomic and affordable solution for mobile charting and note-taking.
