

healthHcentric Technician Stool

Ergonomic, compact and versatile.

Small footprint, versatile stool adapts to your functions.

The **healthCentric Technician Stool** is designed to support a variety of tasks in treatment areas, laboratories and other healthcare environments with limited spaces while increasing comfort, health and productivity.

This versatile stool has a small footprint and the necessary adjustments to support caregivers and technicians in a variety of jobs. The healthCentric Technician Stool offers our optional IC Plus upholstered seat and back, providing industry leading durability and cleanability.

Made from the highest quality materials and components, the Technician Stool is backed by a comprehensive warranty.

Frixion
Healthcare Fabric

Prevent Falls from Chairs

the only Ergonomic Healthcare Fabric available

Stools and chairs in clinical settings are typically upholstered in vinyl and other slippery coated materials. healthCentric's new Frixion Healthcare Fabric allows the user to stay firmly positioned in their seat. It also withstands hospital grade cleaners and disinfectants. Frixion is created by adding healthCentric's proprietary **anti-slip technology** to certain hospital grade coated fabrics.
