

Medical & Lab Stools

ERGONOMIC. CLEANABLE. DURABLE.

health**H**centric™
healthcare seating specialists

healthHcentric, a division of ergoCentric Inc., specializes in designing and manufacturing ergonomic, cleanable and durable healthcare seating for clinical spaces, guest areas and administrative areas. Partnering with customers, we actively seek real world solutions to their seating issues, working to improve comfort and safety while ensuring our products are easy to clean and disinfect.

Health & Productivity

healthHcentric's patented ergonomic features, high level of customizability and modular designs promote concentration and improved performance with enhanced safety and comfort.

The Medical and Lab Stool Series offer superior infection prevention features and anti-slip protection.

Cleanable & Durable

healthHcentric's proprietary Frixion™ Healthcare Fabric and IC Plus™ Upholstery withstand hospital grade cleaners and disinfectants, which are available on the seats of all healthHcentric seating products.

IC Plus is 5 to 10 times stronger than standard medical grade vinyl for added longevity in busy clinical settings.

Sustainability

healthHcentric's commitment to environmental protection is a natural outgrowth of our products and core values. Our management systems are designed to ensure the integration of all applicable governmental, as well as internal environmental, health and safety requirements into our business processes.

Anti-Slip Seating Technology

(Microscopic representation)

The only **ergonomic** healthcare fabric available

Frixion[™]
Healthcare Fabric

Stools and chairs in hospitals and other clinical environments must be upholstered in coated fabrics that can be cleaned and disinfected with hospital grade disinfectants. Unfortunately, these coated fabrics are slippery, which reduces comfort as you slide forward away from the back support and may lead to falls and injuries.

The solution is healthHcentric's new Frixion Healthcare Fabric. It is the only healthcare fabric that can be called ergonomic in that it allows the user to stay firmly positioned in their seat. It also withstands hospital grade cleaners and disinfectants. Frixion is created by adding healthHcentric's proprietary anti-slip technology to a hospital grade coated fabric.

Superior **Infection Prevention** with IC Plus Upholstery[™]

Proprietary to healthHcentric, IC Plus Upholstery is a breakthrough technology specially formulated for the healthcare industry to provide the most durable, cleanable and impermeable medical-grade surface available. Pathogens, fluids and bed bugs stay out because IC Plus Upholstery is non-porous, seamless and

forms a completely sealed moisture-free barrier that makes microbial growth virtually non-existent. IC Plus withstands the most common hospital-grade cleaners and disinfectants, allowing cleaning staff to effectively remove the toughest pathogens from the surface of the chairs in high traffic patient areas.

Real-world Solutions

Engineered by our healthcare seating experts, healthCentric medical and lab stools provide enhanced safety and comfort for healthcare professionals, enabling them to focus on tasks and improve the patient experience.

Exam Room/ Treatment Areas

The healthCentric Medical Stool Series offer superior infection prevention features and support a variety of tasks with limited spaces while increasing comfort, health and productivity.

**Laboratory
Environment**

The healthHcentric Lab Stools and Sit-Stand are designed to support a variety of tasks and sitting positions in the lab environment, easily cleanable and sterilized from top to bottom.

Medical Stools

healthHcentric C22 Stool

healthHcentric Exam Stool

Ultimate Medical Stool

healthHcentric Technician Stool

Heavy Duty Bariatric Stool

Ultimate flexibility in seat height range, with highly cleanable chrome base and a durable height footring.

Work close to ground level, reducing back and leg strain. Easy height adjustment from every angle with ring activator.

The most hygienic medical stool in the market, with foot activated height adjustment disc.

Small footprint, versatile stool designed to support a variety of tasks in healthcare facilities with limited spaces.

Superior strength and stability for long term comfort and bariatric support, warranted up to 500 lbs.

Medical Stool Features

Proprietary Upholsteries

Various Caster/ Glides Options

Variety of Base Options

Foot Disc for Height Adjustment

Frixion™ provides anti-slip protection and withstands hospital grade cleaners and disinfectants. IC Plus™ offers a seamless and impermeable solution against liquids and pathogens.

Dual wheel/single wheel Urethane Casters and Glides are available for multi surface use. Lock-on/ Lock-off Urethane Casters improve safety and ease of movement on tile floors.

Various base styles are available for Medical Stool Series which provide the ultimate flexibility for mobile seating and smaller space requirements.

Easily adjust the seat height from any seated position. The plastic covers provide a non-slip shoe placement to complete the height adjustment.

Laboratory Stools

healthHcentric Sit-Stand

healthHcentric Lab C24 MB

healthHcentric Lab FR MB

airCentric H2S Lab Stool

Easily alternate between different postures: a sit-stand, a sit-stand with backrest, or a counter or desk height task chair.

The 24" chrome base with oval tube foot ring withstand even the toughest lab environments. Easily cleanable and easily sterilized from top to bottom.

Proprietary adjustable footring for easy adjustment. Support the tasks required in a laboratory environment while increasing comfort, health and productivity.

With a sophisticated combination of aesthetics and ergonomics, this counter height stool offers support in lab environments and beyond.

Lab Stool Features

Casters/Glides

Swing-away Arms

Plastic Back Cap

Proprietary Foot-ring

The combination of casters and glides means stability and safety when perching, but make mobility simple when it's time to move the sit stand.

The ultimate in arm flexibility: height adjustment provides arm support when needed, then swing out of the way with the touch of a button.

With the plastic back cap, our lab stools are designed from top to bottom to be easily cleaned and sterilized. It also provides extra durability and protection in busy lab environments.

Our footring is easily adjusted without having to use a tightening knob. It supports user's legs for various height requirements, reducing problems including fatigue, poor posture and decreased circulation.
