

airCentric H2S Lab Stool

Ergonomic design with anti-slip
protection and enhanced cleanability

Comfortable counter-height stool for lab environments

The **airCentric H2S Lab Stool** is designed for counter-height table in a laboratory environment while increasing comfort, health and productivity.

The airCentric H2S Lab Stool includes healthCentric's proprietary adjustable footring for easy adjustment. This durable footring has a large flat surface, making it more comfortable and ergonomic for the user's feet. Various seat size options and arm types make it versatile for all body types and workstations. Features such as the solid solid back cap and optional IC Plus™ Upholstery provide long lasting protection, infection prevention and peace of mind.

with Frixion PVC-Free seat

Upholstered front with
solid back cap

Swing away arms
(optional)

Frixion™
Healthcare Fabric

Prevent Falls from Chairs

The only Ergonomic Healthcare Fabric available

Stools and chairs in clinical settings are typically upholstered in vinyl and other slippery coated materials. healthCentric's new Frixion Healthcare Fabric allows the user to stay firmly positioned in their seat. It also withstands hospital grade cleaners and disinfectants. Frixion is created by adding healthCentric's proprietary **anti-slip technology** to certain hospital grade coated fabrics.
