

healthHcentric Lab C24 Stool

Ergonomic design with anti-slip
protection and enhanced cleanability

Superior comfort and cleanability for lab environments.

The **healthHcentric Lab C24 Stool** is designed to support the tasks required in a laboratory environment while increasing comfort, health and productivity.

The healthHcentric Lab C24 includes our 24" chrome base. The oval tube foot ring is welded on to the frame and will withstand even the toughest lab environments. Various seat size options and arm types make it versatile for all body types and workstations. Features such as the solid back cap and optional IC Plus™ Upholstery provide long lasting protection, infection prevention and peace of mind.

Frixion™
Healthcare Fabric

Prevent Falls from Chairs

The only Ergonomic Healthcare Fabric available

Stools and chairs in clinical settings are typically upholstered in vinyl and other slippery coated materials. healthHcentric's new Frixion Healthcare Fabric allows the user to stay firmly positioned in their seat. It also withstands hospital grade cleaners and disinfectants. Frixion is created by adding healthHcentric's proprietary **anti-slip technology** to certain hospital grade coated fabrics.
