healtHcentric®
The science of sitting®

# Healthcare seating specialists

**healtHcentric®, a division of ergoCentric®, is focused on designing hygienic, cleanable healthcare solutions for clinical spaces.**

All too often, furniture is chosen based on aesthetics over function, and not enough thought is given to performance and cleanability. Unfortunately, these products often break down too quickly and require repair or replacement, costing hospitals valuable time and money.

Driving value to our customers, the core of healtHcentric's innovative designs are cleanability and durability.

healtHcentric works closely with our customers to develop innovative products that make sense for the healthcare industry. Most furniture manufacturers use existing and common designs in their products. healtHcentric, however, consults with customers to develop innovative and practical solutions.

GREENGUARD GOLD · level 3 · BIFMA COMPLIANT · PROUDLY MADE IN CANADA

**Improved safety & comfort**
Anti-slip seating surface reduces falls off of chairs and stools, increasing the ability to engage with the lumbar support.

**Cleanability**
Withstands hospital grade cleaners and disinfectants, helping prevent the spread of pathogens.

**Increased productivity**
Promotes concentration and improves performance and patient experiences.

**Guaranteed quality**
Frixion is backed by a 5 year warranty and has been tested for quality, durability and ergonomic function.

Featured products

- healthcentric® technician stool
- Ultimate medical stool
- healthcentric lab FR stool
